July Provincial Highlights

- In **Manicaland**, the state continues to stifle civil society activities with some civil society organisations being denied clearance to hold workshops. The few meetings that have gone on have resulted in reprisals for the villagers who would have attended. Some villagers have been threatened with eviction for attending meetings organized by NGOs.
- **All provinces**, there are allegations that food aid and assistance for agricultural inputs continues to be politicized.
- In **Mashonaland East, Manicaland and Harare**, there are reports that the mobile registration process is being politicized. Suspected MDC supporters have been denied registration.
- In **Masvingo and Bulawayo**, there are reports of intra- party violence both within Zanu PF and the MDC.
- There has been an increase in cases of malicious damage to property with reports of properties being set on fire in Manicaland, Mashonaland East and Midlands.
- In **Harare**, some people were harassed for not attending the burial of National heroes. In Marlberaign vendors were forced to close shop and threatened with eviction if they failed to attend.
- In **Midlands** - rape continues to be used as tool to punish male members of the opposition. In Sanyati a girl was raped because her father had declared interest in contesting the local government elections.

EXECUTIVE SUMMARY

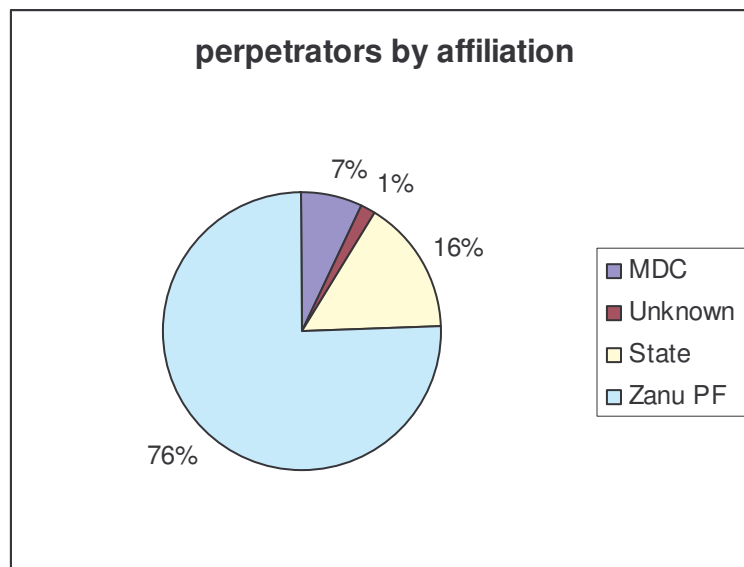

- The month under review saw the implementation of ‘*Operation Dzikisa Mutengo*’ ‘*Operation reduce prices*’. The government gave a directive on June 25 for businesses and service providers to roll back prices to June 18 levels in order to deal with those who were allegedly working with western powers to effect regime change. The price blitz resulted in empty supermarkets as basic commodities disappeared leaving people worse off. The commodities however resurfaced on the parallel market with a high price. ZPP has received reports that some members of the Zanu PF youth wing and state agents have masqueraded as members of price control team seizing goods from shops and vendors claiming that the goods were not correctly priced. Those persons who commented negatively on the price blitz were harassed and intimidated for expressing their views. The state through the police took a leading role in the price control exercise.
- Police, war veterans and Zanu PF youths have abused power under ‘*Operation dzikisai mutengo.*’ It is reported that some shops have been looted by police who then go and sell the looted products at a higher rate on the parallel market. The price reductions have created a general spirit of lawlessness.
- In Midlands, there are indications that the political temperature is rising as some areas in Gokwe have been declared ‘*no go area*’ for those who do not have cards of the ruling party.
- There is increasing polarization of political parties as indicated by the souring of relations between parents and children. There are reports that some children have been chased from their homes or have opted to move out because they support the opposition while their parents support the ruling party.
- In Matebeleland South, Some people have been assaulted for attending Zanu PF meetings because their affiliation was not known. This was done by the Zanu PF youths.
- Some traditional leaders who are Zanu PF sympathisers are reportedly conducting meetings where they announce that all those not supporting the ruling party are not suppose to benefit from the food distribution projects.
- A number of NGOs involved in the food distribution are reportedly being barred from distributing food because the food aid is perceived by the government to be backdoor funding of MDC activities.
- In Matebeleland North, political differences are reportedly affecting family relations as some parents have cut ties with their sons on the basis that the sons support the opposition.
- In Midlands province, it is reported that in some areas, some youths are going round taking house numbers of those people who do not have Zanu PF cards . This is intimidating for people as they do not know how this information will be used.
- In Manicaland province, organizing for social activities such as burial societies are being prohibited on the basis that social gatherings and meetings are viewed as platforms for opposition organizing by Zanu PF activists and some traditional leaders.
- Harassment and intimidation continue to top the list of political violence followed by assault in both the Northern and Southern region. Some persons are harassed for wearing MDC t-shirts, uttering opinions against the ruling party and attending opposition party meetings.
- In Bulawayo the ordinary persons are being harassed for expressing an opinion on the current economic environment, further activists who are seen to be participating in MDC or UPP activities are being

harassed. In one incident the members of the opposition were harassed for putting up posters for an MDC rally. The use of hate language has trickled down to the ordinary person as people at the grassroots level are now labelling each other 'traitors or Blair's children.' The hate language is a common tactic used by the government to trivialise genuine pursuits for democratic processes.

Perpetrator analysis July 2007

The ruling party continues to perpetrate most of the violence. Out of the 769 cases reported to ZPP, 76% of the incidences were perpetrated by members of the ruling party. State agents also continue to perpetrate some of the cases of violence through the police. (Refer to figure 1) The month of July also saw the implementation of the price slashes 'Operation dzikisa mutengo' by state agents with the police taking a leading role in the process. Members of the MDC have also perpetrated violence but to a far less extent as compared to Zanu PF members. ZPP also noted that the traditional leaders who are sympathetic to the ruling party have also played a critical role in displacement of opposition supporters and those suspected to be in the opposition. The chiefs are the custodians of land for their communities and normally conflict in the community would not result in displacement. However as the chiefs have gained more power under the Traditional Leaders Act, some of them are now using their traditional authority to gain political mileage with those in power. Zanu PF youths are also playing a critical role in perpetrating violence. In Masvingo, on the other hand, traditional leaders who are suspected of supporting the opposition have in some cases been arrested with the police members arguing that it is crime for a traditional leader to support the opposition party.

Figure 1: Perpetrator by affiliation

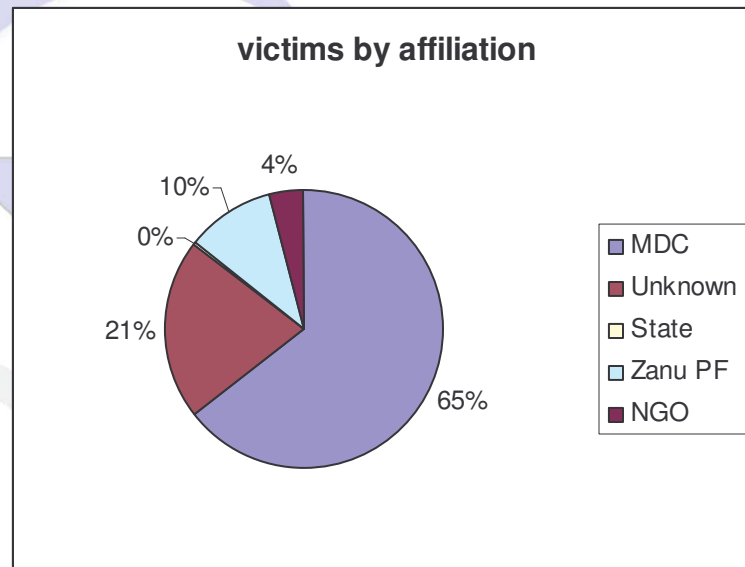

Victim analysis July 2007

A total of 769 cases were reported to ZPP in the month of July. Figure 2, shows that the majority of the victims are from opposition MDC (65%), while 10% are from the ruling party. In most of these incidences Zanu PF members are also assaulted and harassed for associating with members of the MDC. Those whose affiliation is not known are also targets of political violence perpetrated by the ruling party. The people whose affiliation is not known are normally associated with the opposition since they will not be attending meetings. The right to assembly continues to be violated as those not attending meetings are victimised.

Persons who are also seen to be actively participating in opposition politics are targeted for isolation, assault and discriminatory practices in the distribution of food and other resources in the communities.

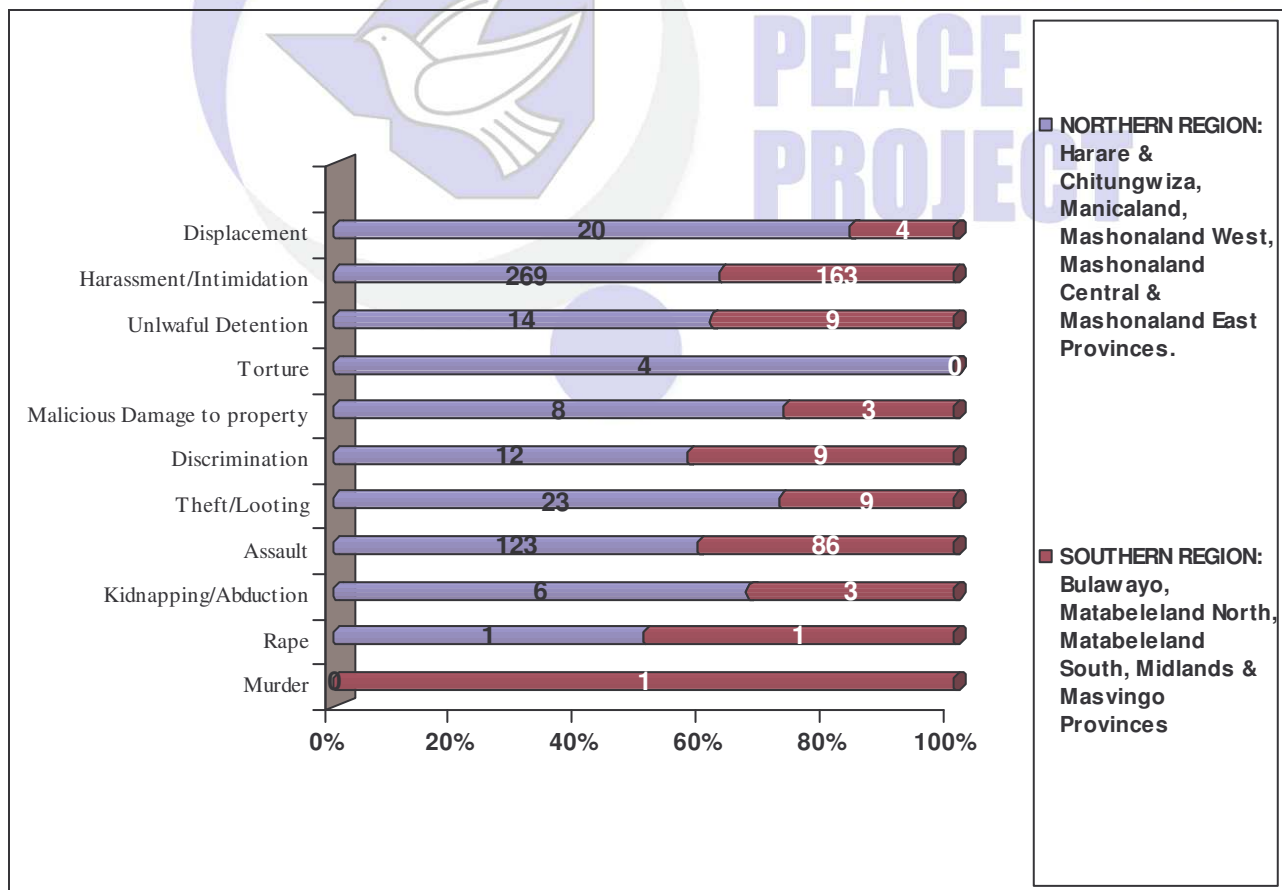

Figure 2: Victims by affiliation

It is sad to note that those not participating in political meetings because of religious beliefs have also been subjected to this violence. Members of NGOs continue to be targeted for violence as they are seen to be pushing a pro western agenda to effect regime change. In some cases, the NGOs who work in the humanitarian sector have been stopped from implementing their projects as their representatives are accused of being members of the opposition. This has a negative impact on the livelihoods and health of the most vulnerable communities who are the beneficiaries of the programmes.

CASES OF HUMAN RIGHTS VIOLATIONS

Figure 3 : Comparison chart showing the human rights violation cases received from the Northern and Southern regions during the month of July 2007

METHODOLOGY

This report is based on reports from ZPP long-term community based primary peace monitors (two in each of the 120 electoral constituencies of Zimbabwe), who observe, monitor and record cases of human rights abuse.

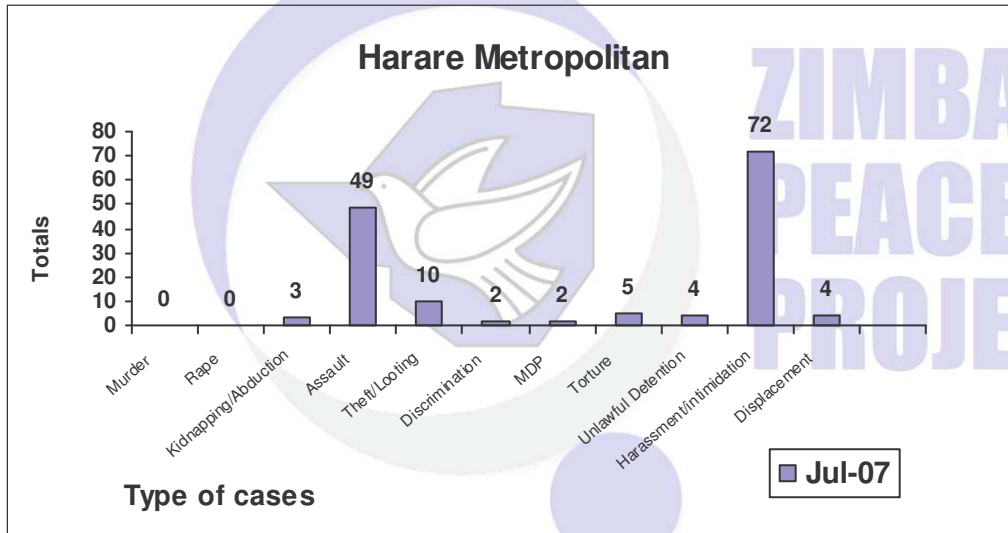

The monitors compile reports

that are handed over to ZPP Provincial Coordinators who manage ZPP offices in the ten administrative provinces of Zimbabwe.

Upon receipt and verification of the reports from the monitors, the Provincial Coordinators compile provincial monthly

monitoring reports, which are then consolidated at the national office, into the ZPP monthly monitoring report. In addition, ZPP reviews relevant literature including acts of parliament, policy documents and newspaper articles.

ZIMBABWE PEACE PROJECT

The Zimbabwe Peace Project (ZPP) was conceived shortly after 2000 by a group of Churches and NGOs working or interested in human rights and peace-building initiatives, and was to become a vehicle for civic interventions in a time of political crisis. In particular ZPP sought to monitor and document incidents of

BACKGROUND & FORMATION

human rights violations and politically-motivated breaches of the peace e.g. violence.

Today, ZPP's member organisations include, the Catholic Commission for Justice and Peace (CCJP), Zimbabwe Council of Churches (ZCC), Evangelical Fellowship of Zimbabwe (EFZ), Zimbabwe Election Support Network (ZESN), Counselling Services Unit (CSU), Zimbabwe Liberators' Platform, Zimbabwe Civic Education Trust, ZimRights, Civic Education Network Trust.(CIVNET)

GOAL AND OBJECTIVES OF THE ORGANISATION

ZPP was established with the aim of promoting peaceful co-existence and to help reduce political conflict and violence through monitoring, investigating and researching the causes and nature of violence and circulating widely the results of such activities. The organisation also aims to help resolve politically related conflicts, and to identify victims and perpetrators of

such conflicts, the former of whom will be assisted by being given any support they may require, e.g. legal, medical or material assistance. ZPP aims to work in cooperation with any authorities, institutions and individuals to achieve its objectives of curbing violence and upholding human rights.

VISION

To see Zimbabwe transform into a society that cherishes the pursuit and realisation of justice, freedom, peace, human dignity and development.

MISSION

ZPP is a community based Trust that promotes peace through documenting human rights violations and disseminating them to stakeholders and policy makers.

GOAL

To reduce violence and human rights violations through community-based and national monitoring, documentation of cases of human rights abuses, and making partnerships and alliances that tap the expertise and assets of local communities and local and regional organisations that will help the attainment of sustainable peace and democracy in Zimbabwe.

THE OBJECTIVES OF THE ZPP

- To be positioned as a leader in quantitative & qualitative trends, patterns on systematic human rights violations in Zimbabwe
- To be identified as a promoter of peace & campaigner against human rights violations
- To have sufficient capacity that enables ZPP to effectively deliver on its mandate
- To be part of a coalition that shares learning experiences & expertise with like-minded local, regional and international organisations
- To have victims access redress, and perpetrators brought to book
- To have MMR used as reference for perpetrator conviction, victim redress and policy influence by key stakeholders

VALUES

ZPP believes in and upholds the following moral principles and standards:

- Democracy and good governance
- Rule of law
- Probity & accountability of public office
- Factual & credible documentation of human rights excesses
- The protection of individual group rights and freedoms, and the human worth.
- Non partisanship and impartiality in dealing with situations of conflict and human rights abuses
- -Gender sensitivity and Equality of all mankind.

ACTIVITIES

The organisation is engaged in the following activities to achieve its goals:

- Monitoring all forms of violence and human rights abuse and collecting data on conditions, practices and policies which affect the human rights, freedoms, dignity and livelihood of people, e.g. the availability or otherwise of food;
- Recording and documenting cases of conflict and human rights violations;
- Networking strategically with other organisations able to assist victims and perpetrators;
- Conducting follow-up investigations to gather enough evidence to build up water tight cases for purposes of litigation;
- Ensuring that certain verified cases of violence and human rights violations are litigated and perpetrators are punished; as part of an anti-impunity drive through the courts
- Providing basic counselling services for both victims and perpetrators of violence and human rights abuses;
- Training monitors
- Referring of victims of violence and human rights abuses to organisations better placed to offer relevant assistance;
- Researching on causes, degree, effects of violence and human rights abuses, and ways of eliminating and avoiding conflict and human rights violations;
- Promoting dispute resolution and conflict management interventions;
- Issuing policy briefs to influence policy decisions deterring the culture or institution of violence and human rights abuses.

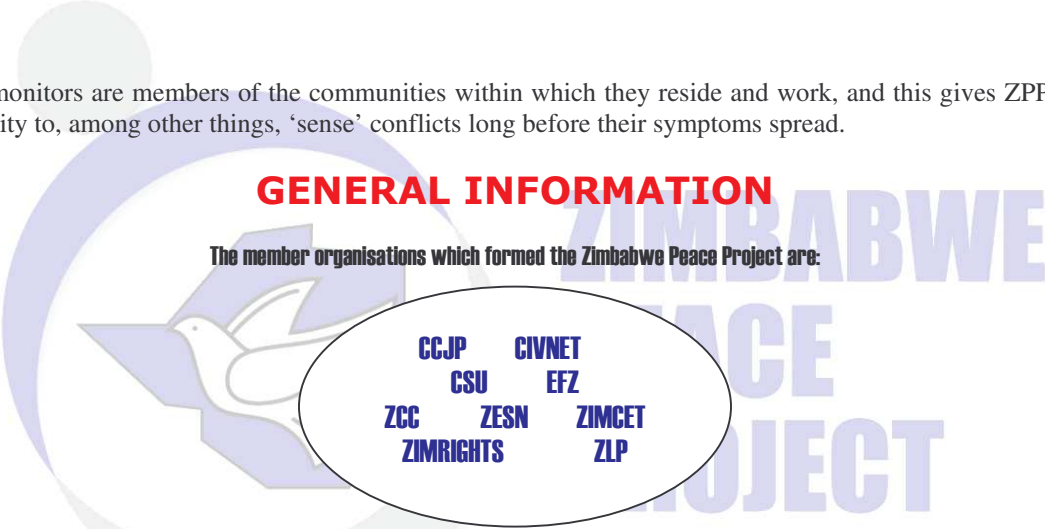

UNIQUENESS

The organisation's strength lies in the fact that it is perhaps the only permanent community-based civil society organisation with a country-wide grassroots presence. ZPP has two trained primary monitors deployed in each of the 120 electoral constituencies of Zimbabwe.

The monitors are members of the communities within which they reside and work, and this gives ZPP the capacity to, among other things, 'sense' conflicts long before their symptoms spread.
