

St Mary's comprises St Mary's, Chitungwiza. It is approximately 30km south of Harare. Chitungwiza is one of the areas that found itself with many constituencies in 2008's delimitation. Part of the old St Mary's constituency has been incorporated into the new Zengeza West constituency. The roads have potholes and most inner roads are dust roads. Transport problems are severe, as many bus operators have withdrawn their services on the route because of price controls placed by the government which are unrealistically low

that discourage operators from plying the route. Shortage of accommodation is critical and this has resulted in over crowding. The people in this area have gone for long periods without water and this has resulted in disease outbreaks. Unemployment is high and informal trading is high as people fail to find formal employment. As with many urban constituencies, MDC has won previous elections in this area.
