<i>Mbare</i>
Matapi; thinking done bad accommodation
In Mbare, we never benefited from that funding in our constituency, and we were not aware of that program. The former member of the house of assembly never addressed the residents of his area. Most of them like the people who voted them into office during election time only.

Yah, Glen View south-ward 31 MP Paul Madzore
I am based in Glen View north constituency, Munengami being the MP and is still the aspiring candidate. He drilled 5 boreholes, computers and computer desks to 2 schools, donated chairs and tables to 3 schools, built science room lastly but not least ZESA transformer 4 the community

In fact no development at all. Rather we live like in the early 1940
We have the worst MP in the whole world
We never had anything about that
And then what will you do if the fund has been embezzled? Lets just go and vote for new and better government.
He bought cement, doors, benches for schools
Sunk boreholes within the drought stricken areas
Kubatana I have always respected u but 4 u to talk of Constituency Dev Fund at this time when we face the possibility of an election being stolen right in front of our own eyes. Go ahead audit the funds but some of us are focused on the big picture. Don't destruct us. Am totally disappointed.
Mashonaland central zero zero havasanganenevanhu vavo toda zvitsva (Mashonaland Central nothing. They never meet the people. We need new leaders)

Mr Undenge repaired many schools that were destroyed by wind. He also built blocks of toilets in some schools
The project was good for the people but our fund was abused by the MP You may evaluate the project. Please come see for yourselves. Thank u.
I am from ward 22 Nyahondo small scale farming area C D F was used to build a community hall here. Mai Muchena (Zanu PF) was our MP.
He promised us a block which was not built, a footbridge not done. Cement was bought for some clinics and later taken back with fear that it will dry up before. Now it's no longer available. He claimed that he used \$30,000 on the 10km road leading to a certain in the constituency where

there is a grinding meal for his part-colleague there has been no transparency whatsoever
I live here at Wedza constituency
He constructed a school in each ward in this constituency

I wonder if the const had a const development committee because no consultations were made as to how the money was going to be used. A few dollars were put in schools which I think was not enough. Thank u for the survey.
Ours was misused at ward level were it was distributed to 3 skuls but one 4 Sosera skul which was allocated 2 buy desks the councillor told us that it was borrowed by Dotito primary which is a beta skul than Sosera children are sitting on floors imagine how cold we don't know how and when the money shall be paid back. Thank u 4 the news updates kumapfanya wena far from Harare
