I would like to apply for a Fellowship to attend the “Data Use and Management: Using Evidence to Improve Programs Training Course”,

1. Matebeleland North Province 17-21 September, 2012 Application Deadline- 7 September, 2012
2. Matebeleland South Province 1- 5 October, 2012 Application Deadline- 14 September, 2012

Purpose of the Training Course

The primary aim of the training course is to offer a hands-on training for Health Information Officers and/or Data Managers in the health and social sectors to build their skills in data management and use in an operational research context, with the goal of using data as evidence from which to improve programming. The fundamental aim of this training course is to build capacity for quality operational research in Zimbabwe and Southern Africa.

The specific objectives of the course were as follows:

- Develop increased understanding of the value and uses of data and operational research.
- Improve ability to synthesize existing information and develop targeted study questions.
- Build data analysis and management skills to enhance the use of data in an everyday setting towards program improvement

NB: Please note that the Fellowship is Province Specific
